

ANATOMÍA MICROQUIRÚRGICA DE LA FISURA COROIDEA APLICADA A LA PATOLOGÍA DE LA REGIÓN TEMPOROMESIAL

ESTUDIO DE LAS RELACIONES ANATÓMICAS MEDIANTE MODELOS VOLUMÉTRICOS
TRIDIMENSIONALES Y APLICABILIDAD CLÍNICA

**Molés Pérez P., Broseta Blasco J., Peña Sancho M.,
García Oriola G., Peris Fuertes X.**

CONCLUSIONES

1. Los modelos volumétricos ilustrados nos permiten una mejor comprensión de la anatomía de la fisura coroidea en los 360 grados del espacio.
2. El estudio a través de modelos volumétricos de la fisura coroidea y sus relaciones anatómicas resulta fundamental como punto de referencia a la hora de tratar lesiones de la región medio basal del lóbulo temporal.
3. El empleo de los modelos 3D permite facilitar y acelerar el aprendizaje de la visión tridimensional y la técnica quirúrgica.

II Edition

MICRONEUROSURGICAL & ENDOSCOPIC HANDS-ON COURSE

ANATOMY APPLIED TO NEUROSURGERY

THE EVANDRO DE OLIVEIRA LEGACY

University Clinical Hospital of Valencia, Spain

June 27th - July 2nd 2026

COURSE DIRECTOR

Vicent Quilis-Quesada,
Spain

Chief of Neurosurgery Department,
University Clinical Hospital
of Valencia (Spain).

COURSE CO-DIRECTORS

Juan Carlos
Fernández-Miranda,
USA

Surgical Director,
Stanford Brain Tumor Center.
Co-Director, Stanford Skull Base Surgery
Program, Stanford, California (USA).

Wen Hung Tzu,
Brazil

Associate Professor,
Division of Neurosurgery,
Hospital das Clínicas, University of São Paulo
Medical School (Brazil).

Ali F. Krisht,
USA

Director of the Arkansas
Neuroscience Institute
at CHI St. Vincent.
Little Rock, Arkansas (USA).

Carolina Martins,
Brazil

Neurosurgeon, Professor,
Neuropsychiatry Department,
Federal University of Pernambuco (UFPE),
Recife (Brazil).

Mateus Reghin,
Brazil

ICNE-SP Institute of
Neurological Sciences of São Paulo.
IAMSPE Hospital do Servidor Público do
Estado de São Paulo, (Brazil).

Pablo Rubino,
Argentina

Chief of Neurosurgery Service of
the German Hospital.
Deputy Chief of the High Complexity Hospital
of El Cruce, Buenos Aires (Argentina).

INTERNATIONAL FACULTY

João Paulo Almeida, USA

Associate Professor, Department of Neurosurgery
Co-Director, IU Skull Base Surgery Program Surgical
Director,
Pituitary Disorders Indiana University
Indianapolis, United States of America

Ruben Dammers, The Netherlands

Neurosurgeon at Erasmus MC,
Co-Director of the Erasmus MC Stroke Center & the
Center for Complex
Microvascular Surgery Erasmus MC,
The Netherlands

Marcello D'Andrea, Italy

Head, Skull base and
vascular unit
"M. Bufalini" Hospital,
Ausl Romagna,
Cesena, Italy
